PROFESSIONAL SUMMARY

Full-stack software developer who has built and shipped 100+ applications across web, desktop, and mobile — including commercial products sold on Gumroad. AAS in Software Development with a 4.0 GPA across 19 classes and 6 consecutive quarters. Proficient in JavaScript/TypeScript, React, Node.js, C#/.NET, Rust, PHP, Python, and Kotlin with hands-on production experience in cross-platform desktop engineering (Tauri, WPF), WordPress theme development, Android, and cloud microservices (Azure Functions). Backed by 4+ years at Amazon in trusted leadership positions — auditing policy compliance in high-liability operations, onboarding and mentoring associates, and driving measurable cost savings. Currently shipping commercial applications and pursuing full-time software engineering roles.

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, Python, PHP, C#, Rust, Kotlin, Go, HTML5/CSS3, SQL
Frameworks: React, Node.js/Express, Laravel, Tauri, WPF/.NET, WordPress, Three.js, GSAP, Android (Kotlin)
Tools: Git/GitHub, Azure Functions, Docker, Vite, SQLite, VS Code, PHPStorm, DreamHost, Linux, Jest
Concepts: Full-Stack Development, REST API Design, Cross-Platform Desktop Apps, PWAs, CI/CD (GitHub Actions), Agile/Scrum, GPU-Accelerated Rendering, Technical Documentation

WORK EXPERIENCE

Amazon — Spokane, WA

Jan 2022 — Present

Lead Problem Solver / Learning Ambassador

- Promoted to Learning Ambassador within 5 months; trained and onboarded new associates across department workflows, becoming the go-to resource for peers and leadership alike
- Served as gatekeeper and compliance auditor for Damage Land — a high-liability zone for hazardous product disposal — reviewing other problem solvers' work, enforcing company policy, and escalating violations
- Processed millions of dollars in damaged product; identified and implemented cost-recovery procedures that saved Amazon an estimated hundreds of thousands of dollars in unnecessary write-offs
- Operated in a position of direct trust with management during peak periods, triaging operational issues, fielding questions from a leadership perspective, and serving as the primary point of contact when managers were unavailable
- Received Associate Safety Star Award for proactive hazard identification and consistent adherence to safety protocols
- Transitioned to part-time (Sept 2025) to complete degree and pursue professional software development; maintained high performance metrics throughout

American Mower & Saw — Hayden, ID

Feb 2017 — Dec 2021

Office Manager

- Revitalized sales and customer service operations, driving 13–19% annual revenue growth year over year
- Redesigned parts storage and inventory system, improving order fulfillment speed and reducing errors
- Managed end-to-end customer lifecycle: repair orders, cost estimations, parts procurement, and strategic upselling across thousands of interactions

PROJECTS

Resume Builder Pro (Tauri · React · Rust · Python)

Cross-platform desktop app with 14 templates, real-time preview, PDF/PNG/JSON export, Gumroad license integration, and offline PWA mode. Published commercially on Gumroad.

Stealth (Tauri · React · Rust)

Cross-platform AI chat interface integrating Ollama and Docker Desktop models with agentic mode (filesystem, shell, web search), conversation history, file attachments, and a deep-research pipeline.

UIPlayground (Node/Express · React/TS · SQLite)

Self-hosted UI effects showcase featuring 450+ sandboxed CSS/JS snippets across 28+ categories with live iframe preview and a full seed-based content pipeline.

ChimeraCast (C# · WPF/.NET · D3D11/DXGI)

GPU-accelerated streaming application with D3D11 preview at 60fps, multi-source capture (webcam, display, audio), OBS-style window management, and partial-class architecture.

Noter (C# · WPF · XAML)

Full-featured note-taking app with Markdown editing, tab system, plugin architecture, analytics dashboard, collaboration page, templates, voice notes, and version history.

Cordino Admin Platform (Azure Functions · React · Jest)

Team-built SaaS admin dashboard using Agile/Wrike workflows and Git branching strategy. Implemented multiple REST endpoints with Jest test coverage and responsive modals.

DevWharf Portfolio (WordPress · PHP · Three.js · GSAP)

Custom WordPress theme with cyberpunk aesthetic, Three.js/GSAP animations, glassmorphism UI, falling-code data streams, neon particle effects, and 20+ interactive web tools.

Gumroad Application Suite (React · Tauri · Node.js · Go)

Monorepo of 100+ commercial web and desktop applications — calculators, generators, dev tools, productivity apps — built for Gumroad distribution with shared architecture patterns.

EDUCATION

Associate of Applied Science, Software Development

Spokane Community College — Graduated March 2026

4.0 GPA — Perfect marks across all 19 classes over 6 consecutive quarters. Coursework: full-stack web development, mobile development (Kotlin/Android), database design, cloud services (Azure), team-based software engineering, and technical documentation.

High School Diploma

Spokane Falls Community College — September 2022

RECOGNITION

Associate Safety Star Award — Amazon. Proactive hazard identification and safety protocol adherence.

Learning Ambassador Promotion — Amazon. Promoted within 5 months, one of the fastest advancement timelines in the facility.
